

Metropolitan School Frankfurt

SECONDARY SCHOOL PROFILE

2025/26

History

Metropolitan School Frankfurt was founded in 2007 as a private not-for-profit international school serving international and local families. MSF has graduated seven classes, a total of 203 students.

Community

770 students from 55 countries are currently enrolled in Early Years through Grade 12 and taught by 150 international staff.

Mission Statement

Metropolitan School Frankfurt is an IB World School with a clear international profile offering an outstanding, inspirational education.

Our students are inspired to become well-rounded, independent thinkers equipped with the skills, knowledge and understanding to master the challenges of the future.

This is achieved by our engaging and passionate teachers working in collaboration with parents and the wider school community in a safe, student-centred environment.

Secondary School Philosophy

At the center of the Secondary School experience stands the belief that if a student truly thrives in school, he/she will fulfill his/her potential. Grades 6-12 offer a challenging academic programme that balances learning with the adolescent's need for social interaction and connection. Our students work in a nurturing environment that encourages them to manage their time, assume responsibility for their learning, and become independent thinkers. Every step of the way, they are guided by a team of teachers committed to providing attention to each student's personal, social and academic development.

Curriculum Overview

Our programme consists of Grades 6 through 12. Students in Grades 6 – 10 are taught the Cambridge International Examination IGCSE curriculum and are prepared for the IGCSE examinations in Grades 9 and 10. These examinations provide a sound basis for the IB Diploma, a globally recognised university entrance qualification.

The IGCSE covers key elements of the relevant German Sekundarstufe I and II. Successful completion of the IGCSE examinations is considered by Hessen as equivalent to the Realschulabschluss.

The IB Diploma Programme (DP) is a challenging two-year curriculum, taught in Grades 11 and 12, leading to a widely recognized university entrance qualification that the world's leading universities value. The DP curriculum is built upon six subject groups together with the "DP Core" made up of three separate parts, CAS (Creativity, Action, Service), ToK (Theory of Knowledge) and EE (Extended Essay), each integrated with a range of approaches to learning.

Students select one subject from each of the six subject groups. Three are studied at Higher Level and the remaining three are studied at Standard Level. At the end of the programme, candidates are assessed both internally and externally in each subject.

The IB Diploma covers key elements of the German Sekundarstufe II and are considered as equivalent to Abitur. This equivalence is subject to certain criteria being fulfilled regarding specific course selection.

As a NEASC certified school, all students also earn an American High School Diploma.

Metropolitan School Frankfurt is exceptional. It is warm and welcoming. It provides an excellent international education while maintaining a family-like atmosphere. Large enough to offer a wide selection of teaching and learning opportunities, MSF is small enough to feel like home.
